This diagram illustrates the final assembly steps. The main view shows two rectangular panels, both labeled with a circled '5'. The top panel has a small shelf labeled 'H2' attached to its center. A dotted circle highlights the shelf's attachment point, with an inset showing a screw 'W3' being inserted into the shelf. The bottom panel has four corner brackets labeled 'M1' attached. A circular inset shows a 180-degree rotation of a component. To the right, a separate diagram shows a circular component with a central hub and four spokes, labeled 'M1', being lowered onto a base. Small cylindrical components labeled 'K1' are shown near the corners of the panels.

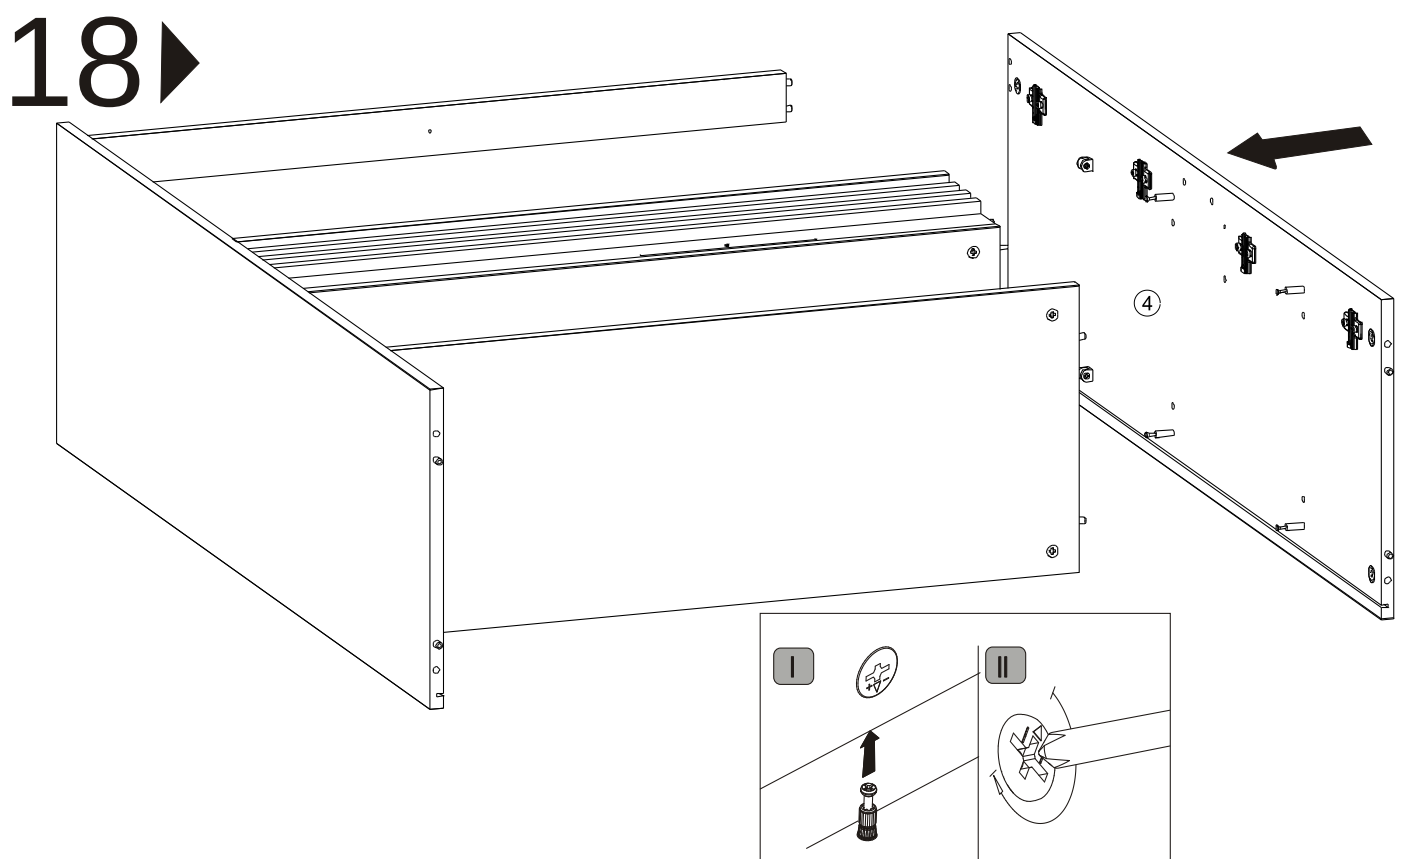

# 16▶

Diagram 16 illustrates the step of attaching the front panel (6) to the frame. The panel is shown being moved into position, guided by arrows. The panel is secured to the frame (5) using screws. A detailed inset shows the two-step process of inserting a pin (I) into the panel's edge and then tightening a screw (II) to secure it.
